SHINING A LIGHT ON LOCAL AND DIVERSE TALENT

Illuminate is a new, work-in-progress project encouraging diversity and inclusion within the arts scene in Lincoln. We are keen to boost the voices of local artists, creators and performers and build a strong community that is proud of what Lincoln has to offer. We want to offer a monthly space where this community can get together, share their work at whatever stage it is in, and develop their craft. If you perform music or theatre, want to try your hand at stand up or spoken word poetry, have an art installation you want to display, or anything else, we want to hear from you.
